Objective of the document	4
Circular Economy Network establishment	5

Objective of the document

This document is collecting information from partners in order to describe the establishment of the CE network between the cities.

It describes establishment and work of the network that will focus on transnational activities and synergies on international level.

Circular Economy Network establishment

The GREENCYCLE Transnational network is composed by the 5 cities that are involved in the Alpine Space Greencycle project. Their Circular Economy (CE) managers are the founders of the network. The network is starting and it will be active in order to get promoted by them as a useful resource also for other cities.

The CE Manager network has been established through a first Conf Call between the part happened the 18th March 2018.

Participants

City	CE Manager	Other Participants
City of Freiburg	Suzanne Knospe	
City of Maribor	Igor Kos	Brina Novak Klemen Bizjak
City of Trento	Lorenza Forti	Sebastiano Andreatta - City of Trento Marco Combetto - Informatica Trentina Lorenzo Dallapè - Informatica Trentina
Vienne Condrieu Agglo	Mustapha L'Haoua	Anne Luminet, Melanie Allibert
City of Vorau	Christian Allmer	Barbara Stumpf

Agenda

- co-establishment of the interstate network of circular economy
- first discussion on activities in the network at the international level;
- first discussion on activities involving the integration of local to the city key stakeholders in the circular economy;
- exchange experience with other circular economy managers regarding functioning of newly established international platform of the Interreg Alpine Space Greencycle project, testing the platform, reporting on its functioning and suggesting improvements;

Next actions

- Planning a virtual conference call between CE manager in Novembre 2018
- Planning a physical meeting between CE manager in next period, during one of the selected by Greencycle conferences. EUSALP 2018 in Innsbruck it is the most possible
